

Type: KSS1000/45-20K
Model Series: **agilis**

Equipment:

- Test room window 560 x 560 mm
- High rates of temperature change from up to **20 K/min**
- Water-cooled system
- Future-proof Refrigerant R449a
- Several Bushings on the both sides of the test room
- Modern controller SE-604
- C-rails on the side walls
- Test room lighting
- Frequency converter for fan motors

Technical specifications

Dimensions of the test room	1010 x 1010 x 1010 mm (WxDxH)
Dimensions outside	1300 x 2350 x 2100 (2400) mm (WxDxH)
Temperature range	-40 °C to +180 °C
Temperature deviation	Temporally in the range of -40 °C to +80 °C ±0.1 K ... ±0.8 K
Temperature change	Approx. 20 K/min on average
Humidity range	10 %rH to 98 %rH

Manufactured year: 2005
Operating hour: 12,000

Price: 98,000 Euro
